

US20-C Series

Time & Attendance terminal with 2.8 TFT display

US20C-R / US20C-B / US20C-M / US20C is an innovative standalone RFID / barcode / magnetic stripe / Fingerprint time and attendance reader. With a color 2.8 inch TFT display, offering unparalleled performance on an embedded Linux platform with all the features of a modern time and attendance reader.

US20C series is an easy plug-in solution for existing time attendance software developers who have already integrated other ZKTeco readers.

Features

- Choice of Barcode, Mag Stripe, Proximity or Fingerprint device
- 2.8" color TFT screen for display of graphics and icons. Managers can even leave SMS messages (Short Message on Screen) behind for employees reporting in/out of work
- Supports both hard-wired TCP/IP and wireless connections. Standard RS-232 and USB host for data downloading.
- Rugged keypad with 4 additional function keys to customize
- Supports up to 3,000 fingerprint templates or 10,000 cards/badges
- All models support up to 100,000 transactions
- US20-C Series readers optionally add HID Prox, HID iClass and 13.56MHz and Elatec modules, support dual-frequency.
- ZKTeco provides support for software developers who wish to integrate ZKTeco readers with any application which requires verifying people.
