

Product Description

iClock-S880 is a Time & Attendance and access control terminal with incorporated EM proximity card reader and 3'5 TFT display. Easy to install, and with a modern design, it is the perfect solution for all kinds of installations. It incorporates 1,3M pixels camera for taking user photos and sending black/white photos lists to the server. The color TFT display offers users easy menu management. Iclock-S880 is based on ZEM600 platform which allows more memory capacity and professional firmware functions. It can connect to Time & Attendance management software by Ethernet or USB port (optionally it can work by Wifi and GPRS), and also operate on standalone mode, downloading data by USB pendrive. For access control, it allows time zones and groups and the relay can be connected to lock or external siren.
